

CRITICAL ILLNESS INSURANCE

Redefining critical illness insurance to unlock new opportunities

Unbundled coverage. Focused protection. Affordable peace of mind.

Canada 
Protection Plan®
From Foresters Financial™

Cardiac and cancer coverage, even with a pre-existing condition

Offer your clients the choice to unbundle or bundle cardiac and life-threatening cancer¹ conditions, making our critical illness insurance (CI) more accessible.

Our innovative approach means clients with a pre-existing cardiac or cancer-related illness can now qualify for CI insurance to cover conditions they do not have, opening up your potential client base like never before.

- Clients diagnosed with heart disease or diabetes can now get cancer coverage
- Clients living with cancer can now get cardiac coverage
- Clients can now choose to get both cardiac and cancer coverage
- Clients only pay for the coverage they choose, making their premiums more affordable

Our CI plans cover eight of the most common critical illnesses

Many critical illness insurers lump major conditions such as cancer, heart attack and stroke under one policy. This could make a client ineligible for critical illness insurance if they have suffered from any one of these conditions in the past.

Cardiac Protect CI covers	Cancer Protect CI covers
<ul style="list-style-type: none">– Heart attack– Heart valve replacement or repair– Aortic surgery– Stroke– Coronary artery bypass surgery	<ul style="list-style-type: none">– Cancer– Aplastic anemia²– Benign brain tumour²

More choice in plans makes selling easier

With Canada Protection Plan from Foresters Financial™, your clients have more choice with four critical illness insurance plans to provide the choice, coverage and affordable protection.

Innovative e-app

Our easy-to-use **eAccess e-app** makes submitting an online application seem effortless.

Simplify your business

- Shorter applications mean a fast and easy process for affordable critical illness insurance.
- Policies can potentially be issued within a few hours through ePolicy delivery, or in just a few days through paper policies.
- Payments start in the second month for monthly payment plans.
- Save more of your time with eAccess and our non-face-to-face eSignature option.

Case studies

After a life-changing medical diagnosis or emergency, recovery can be long and challenging. Now more than ever, Canadians need reliable protection to reduce the financial impact of a critical illness, so they can focus on their health.

Meet Julie*

- Female, age 35, non-smoker, diagnosed with basal cell carcinoma six months ago. Otherwise healthy.
- **Declined** for CI insurance elsewhere and **approved** for all plans at preferred rates with us.
- She chose Cardiac and Cancer Protect CI, T75 with a face amount of \$50,000, at a rate of \$42.12 per month.
- Two years later at age 37, she was diagnosed with cancer.
- We paid her a lump-sum benefit of \$50,000 for her cancer claim.
- She was still covered for cardiac conditions for \$50,000.
- Her premiums dropped to \$16.20 because she then was only paying for cardiac coverage. What's more, her new premiums were based on her issue age of 35, not her attained age of 37.

Meet Phillip*

- Male, age 40, non-smoker, diagnosed with colon cancer three years ago.
- Underwent surgery and chemotherapy.
- In remission for 2.5 years.
- **Declined** for CI insurance elsewhere.
- **Approved** by us for Cardiac Protect CI, T75, \$50,000 at preferred rate of \$27.36 per month.
