# Show me how it could work

## Meet Ajay<sup>12</sup>

He's a 38-year-old non-smoker, married with one daughter and works as an electrician. He currently has a mortgage of \$400,000. He is looking for a solid plan to protect his family and an opportunity to build a supplemental retirement stream as he is already contributing the maximum to his RRSP and TFSA.

### His advisor's recommendation

Purchase Advantage Max with \$150,000 of permanent coverage and a \$300,000 Term 20 rider that could potentially be used to help pay off the mortgage if something happens to Ajay. Selects a premium payment period of 20 years and dividends will be used to purchase paid-up additional insurance. The insurance certificate is issued and Ajay becomes a Foresters member.

#### AGE

38	Registers on the MyForesters website to access his member benefits. Immediately creates a will using LawAssure.
39	Applies for a \$200 Foresters Care to help his local food bank.
41	Uses his on Foresters Go rewards points to purchase a smart watch.
44	Works with other Foresters volunteers to assemble backpacks for local school children using a Community Volunteer grant.
48	Ajay's daughter applies for a Foresters Competitive Scholarship.
55	Converts the \$3,000 Children's Insurance Benefit to whole life and purchases an additional \$7,000 for his daughter without providing evidence of insurability.
56	Ajay requests that any declared dividends be used to pay the premiums. He uses the money he was paying for premiums to help pay off his mortgage faster.
58	Premium paying period ends and Term 20 rider is not renewed. Any declared dividends now go to purchase paid-up additional insurance.
65	Ajay is ready to retire. Arranges annual loans of \$8,000 from the certificate's cash value to supplement his retirement income.
66	In retirement, Ajay continues to take part in Foresters activities to stay involved in the community and make new friends.
81	Ajay passes away and his beneficiaries receive \$378,077, the death amount minus any outstanding certificate loans. <sup>13</sup> An additional \$1,500 is donated to Ajay's favourite charity and his estate receives a charitable tax receipt.

In short,  
Ajay has  
lived life to  
the **MAX.**

<sup>2</sup> Dividends are not guaranteed. Past dividends are not an indicator of future dividend performance.

<sup>3</sup> Loans can be taken if the certificate is in effect and has sufficient cash surrender value. The minimum and maximum amounts available for loan are calculated based on the terms of the certificate. Loans will reduce the death benefit and cash values and may affect how long the certificate is in-force. Interest is charged daily at the contractual loan rates. On every certificate anniversary, Owners are required to pay the loan interest accrued since the last certificate anniversary. If interest is not paid when due, a new certificate loan will be issued on the same terms and conditions as the existing certificate loan. Death benefit payable is net of the outstanding certificate loan amount(s) including any accrued interest. If, at any time, the loan amount(s) exceeds the cash value at that time plus the present value of paid-up additional insurance then in-force and the amount of dividends on deposit at that time, then the certificate will terminate. Loans may be considered a reportable tax event. You should consider consulting your tax advisor for details on your specific situation.
